Summer projects underway

We have two summer projects that are scheduled to be completed the first couple of weeks of August. We have received generous gifts from several donors to cover the cost of the work. These projects are large enough in scope that we will be in a shut down mode for our normal operations and retreat activities.

The first project will remove and recoat the flooring in our commercial kitchen. The existing coating is close to 25 years old and is failing in many spots and is difficult to keep clean. This is a substantial project because all of the kitchen equipment, sinks, stoves, dishwasher will have to be removed

to complete the work, and then reinstalled.

The second project will turn our gift shop into a library. The gift shop has been under utilized over the years and the space will lend itself nicely as a

reading library. The project will include new paint and new tile throughout our lobby as well as the library

Thanks to our generous donors, we have money set aside specifically to address these two efforts.
