Chapel project moving forward Construction scheduled to finish in June

Dear Friends of Mt Claret,

I want to provide a Chapel project update for you—we are 10 weeks into the project and are starting to see it taking shape. In early February we began the laying of the concrete block for the expansion part of that project. That is the narthex (lobby), Sacristy and restrooms. The inside of the Chapel is completely gutted and ready for new electrical work and

new duct work for the heating and air conditioning system.

The new pews have been ordered from Marshall Company who specialize in pews and church furniture. They are “mitered” pews which will allow them to conform to the chapel shape and will enable seating for 135 persons. We continue to develop the interior artwork and wood work. We are keeping with the Southwestern mission style.

The estimate for completion is in June. The goal is to get enough of the interior construction and finishing complete so we can resume saying Mass in the Chapel. Some of the artwork details will need to happen over time.

Our fundraising as of this writing is doing well. We are one year into our three year campaign and we have received over \$1.5 million in gifts and pledges. We have received \$1.3 million of that total. While \$1.5 million has been our goal, we will likely have

some more fundraising to do to fully complete the interior and to improve some of the outside landscaping.

Our temporary conference center chapel space is working out, but has some drawbacks. Because of using the center for Mass, we are restricted on how we can use the conference center for meetings. It will be good to get the chapel completed so that we can resume Mass there and free up this usable space. Besides our Sunday Mass community, our retreat ministries have also been affected by the Chapel construction. They

have been very accommodating and understanding of the situation and we all appreciate it's not permanent.

Yours in Christ,
Tom McGuire, Director
