SUMMER TIME LESSONS!

Summer is fast approaching, which means school is ending and summer break is soon! If you are not going to be in town during June and July, please let the office know so we can plan accordingly.

Please remember that if you stop your lessons for the summer your instructor and time slot are not saved for you when you return. PMA will fill your time slot with a new student who will then keep that spot as long as they remain an active subscriber.

However, you may retain your time slot and instructor by keeping your monthly subscription active during June and July by paying for a twice a month or weekly lesson. You will be billed the first of the month for June and July. You can schedule any missed lessons these months with your instructor either before you leave for the summer or when you are back. You may also take your lesson on Zoom from anywhere in the world as long as your teacher is available.
