#### *Meet Traz* Guitar

Traz has been playing guitar since the age of 4 and has played in many bands in different genres for over a decade. He has also toured the U.S. and Europe in rock and metal bands. He was lucky enough to be able to study music at Musicians Institute as well as Berklee.

In 2020, Traz decided to get into teaching and discovered that he really enjoyed it and developed a passion for teaching guitar. He loves teaching music theory and songwriting in all kinds of styles, especially in the rock and metal genres, from simple rock to the extremely technical metal. His teaching philosophy is to make things more simplified and easier to understand and to help students grow and become better players quicker.
